

Guan Ying Goh

New York, NY | gohguanying@gmail.com | linkedin.com/in/ying2212/ | github.com/ying2212 | [Portfolio](#)

EDUCATION

CUNY Hunter College, New York

Bachelor of Arts in Computer Science | Minor in Mathematics

Expected: May 2026

- Dean List, CGPA 3.59

EXPERIENCE

NYC Department of Transportation | Software Engineering Intern

Jan 2026 – Present

- 15-week virtual internship focused on data collection, analysis of DOT datasets, and software development
- Develop an educational truck safety game in Unity by implementing NavMesh-based pedestrian and car driver systems to simulate street interface

American Museum of Natural History – Astrophysics Department | Data Ingestion Intern

May 2025 – Present

- Architected an ETL pipeline using Python and SQL to automate ingestion of astronomical metadata into an AWS-hosted SQLite database, significantly reducing manual processing
- Improved data integrity through schema validation and error handling, supporting seamless data visualization for global researchers via the SIMPLE-db project.

DNR Events LLC | Software Engineer Intern

Feb 2024 – Apr 2024

- Led a three-person team to develop e-commerce features for a mobile application using .NET Core and C#, improving user experience and app functionality
- Implemented XML parsing and REST API integrations to sync product data between the website and mobile app, ensuring backend-to-frontend data consistency

TECHNICAL PROJECTS

Stay in the Loop | [Github](#)

Dec 2025

- Developed a full-stack community platform in a team of 4 using React, Node.js, and Socket.io to enable real-time neighborhood incident and events reporting and live chats
- Integrated Google Maps API for event visualization, enhancing local community engagement through a map-based UI

Lifted AI | [GitHub](#)

Dec 2025

- Built a React Native mobile chatbot with mood tracking and interactive features, providing on-demand mental health support via GPT API.
- Engineered a secure backend using Express/TypeScript and PostgreSQL to manage user data and character selection

Brightside Health Inc | Machine Learning Fellow | [GitHub](#)

Aug 2025 – Dec 2025

- Built a clinician-facing knowledge graph from depression and anxiety research papers, extracting evidence-based drug-condition relationships with 93% precision using GPT-4o and multi-method validation
- Normalized data entities to RxNorm and SNOMED CT, loaded structured JSON into Neo4j, and implemented a Streamlit UI for manual pipeline control and exploration of treatment options

FoodLink | HackCUNY Hackathon | [DevPost](#) | [Github](#)

Feb 2024

- Designed the front-end for a web platform aimed at reducing food waste and improving food bank accessibility
- Collaborated with a 4-member team, created user flows, wireframes, and high-fidelity prototypes in Figma

LEADERSHIP & INVOLVEMENT

Break Through Tech AI @ Cornell Tech | AI & Machine Learning Fellow

Present

- Selected from 3000+ applications and engaged in a 12-month long program
- Collaborated on a team of 4 at Brightside Health company, using AI/ML to analyze clinical research and support evidence-based treatment decisions for mental health conditions

Girls Who Code Club @ Hunter College | Treasurer

Present

- Managed club finances, including budgeting, financial reporting, and successfully requesting funding for club events and initiatives

Google | Mentee @ Google Software Engineer Program (G-SWEP)

Mar 2024 – Jun 2024

- Participated in a ten-week long workshop program led by Google software engineers to help prepare for technical interviews and preparation for careers in the tech industry
- Tackled problems involving recursion, arrays and strings, binary trees and search, stacks, and hash tables every week, with the goal of coding solutions and communicating problem-solving techniques effectively

TECHNICAL SKILLS & AWARDS

Programming Languages: Python, C++, C#, JavaScript, HTML/CSS

Frameworks & Libraries: React, React Native, Express.js, Node.js, .NET

Databases: PostgreSQL, MongoDB, Neo4j, Supabase

Cloud & Tools: AWS, Git, Unity

Certifications: Cornell Tech Machine Learning Foundation, Google Data Science, CodePath Intro to Web Development

Awards: 1st Place Winner – Girls Who Code X WiCS Hackathon 2023
